Photography Business Name Generator

Below you'll find a blank chart to use to evaluate the names you're thinking about for your photography business. You will be able to compare them, line by line, to one another. Another fantastic idea is to add your competitors to the list to see how you stack up against them. If you're having trouble competing in one category, maybe focusing on another is a wise idea.

Assign each column a value (0-10) and add them up across. The more points, the stronger the name (100 maximum points).
